

Mewar University and Micro, Small & Medium Enterprises (MSME) Collaborative Programmes

Technology is changing rapidly with increasing complexity. There is a need for new education system that responds to both technological and business innovation. Industry demands graduates who possess sound knowledge of basic science concepts, mastery of the discipline and standards, problem-solving skills, system integration skills, experience in dealing with cross-functional business and team innovate and exhibit traits of ethics, values and eco-sensitivity. With fresh industry demands and new age career options, a holistic academic approach is imperative to create future ready professionals.

Tenth pass outs may be groomed to have adequate practical skills and potential to become Global Practice Engineers and Entrepreneurs if they are properly trained via ITI route. In the present scenario, the opportunities for 10th pass or ITI pass are very limited. It is estimated that less than 7 out of 10,000 ITI pass outs may move up to degree programme.

Mewar University is providing training exposure to its students in reputed Tool Rooms of MSME.

1. **For B.Tech. Students (4 years):** 6 months on the job training cum internship in concerned industry during 8th semester.
2. **For M. Sc. And MCA students:** 6 months on the job training cum internship in concerned industry during 4th semester.
