The Lecture Capture system in Mewar University is a Comprehensive Video-Based Platform used for capturing the lectures in high quality.

The Lecture capture facility allows instructors to record or capture, edit and live stream their lectures. It provides students the deeper understanding of their topics as they review classroom content at any time, from anywhere.

The University has procured licensed adobe creative cloud software for editing raw lectures and presentations. The adobe creative cloud, comprising of adobe Photoshop, adobe audition, premier pro, adobe Premier Rush, adobe illustrator, adobe dimension and adobe animator, amongst others.
